

SMALL HOBBY HORSE

Ingredients

- 1 x A4 sheets coloured card
- 1 x A4 sheet contrasting colour card
- wool
- strips of cardboard : 2 cms wide for the mane
2.5 cms wide for the stick

you will also need:

- craft glue
- black marker pen
- paint for the stick
- pencil
- scissors

Method

1. Paint the stick in a colour of your choice. Leave about 4cms at one end of the stick unpainted. Leave to dry.
2. Print out the template page and cut out the head, ears and eyes.
3. Draw around the head shape twice and the ear twice on the coloured card and cut out. (ASK AN ADULT TO HELP)
4. Cut off the nose section from the head template and use this to cut out 2 nose shapes in the contrast colour card.
5. Cut out the eyes and leave to one side for later.
6. To make the **mane** you will need short lengths of wool. A good way to do this is to wind the wool around a strip of card which is half the width of the finished lengths of wool. Cut through one side of the wool loops and you'll have lots of bits the same length.
7. On one of the head shapes, spread glue around the top of the head around the back and down the neck. Lay the wool on top leaving long lengths sticking out.
8. For the **stick** glue the unpainted section of the stick to the centre of the neck next to the mane.
9. Spread some glue all over the 2nd head shape of card making sure it's facing the opposite way from the 1st. Stick the head shapes together which will sandwich the mane and stick. Keep pressing all around the edges to help them stick together.
10. When the head is dry, glue the contrast nose sections, ears and eyes to each side of the head.
11. Using a black marker pen, draw a mouth and nostril on both nose sections.
12. Your Hobby Horse is ready to give to your teddy.
